

# DECO AMBIENT LIGHTING

## Ambient Nest

Inspired by the precise designs of the weaver bird, these nest like suspended lanterns gently rotate and sway in the evening breeze. As the night draws in, the soft (solar LED) light shining through the detailed weave throws dancing shadows as the setting sun shimmers through the leaves.

## Ambient Cocoon

Mimicking the perfect texture and symmetry of silk cocoons, these minimal and delicate looking lanterns are deceptively tough. Manufactured from modern plastics and combined with a striking solid teak handle of almost agricultural purity, these (solar LED) lights are as much about design as they are about illumination.

Danish designer Henrik Pedersen has combined an extensive background in interior lighting with an intimate knowledge of outdoor furniture to create the Ambient collection. Asked about the design influences, Henrik says "My path in design has led me through many parts of the world, many cultures... Light and warmth are always principal parts of the best social environments and the most modest of devices are often the most effective. Here I combine the worlds of simplicity and light to achieve beautiful background illumination". Two distinct designs are available and, as the name suggests, create the perfect ambience alongside any Gloster collection as the sun begins to set.

Smooth tough modern plastics are paired with signature teak handles creating Cocoon. For Nest, man-made fibres in either Steel or Fawn colour, encase a colour matched powder coated stainless steel frame. Both styles of lantern create soft mood lighting with the use of integrated solar charged LED lights.

## About Gloster

As life gets faster and more complex, the need for quality time and space - the freedom to be you - grows too. At Gloster we open doors to timelessly beautiful exteriors where your furniture sets the mood, just the way you want it to be. And we take the long view, using only the very best materials and techniques available. Our aim is your pleasure - to be enjoyed in countless special moments outdoors.

With offices world-wide and our own manufacturing facility in Indonesia, Gloster's roots can be traced all the way back to West Africa in 1960, where a band of passionate entrepreneurs and furniture makers took the first steps on a long journey. Today, the same passion, conviction and pride that launched the Gloster brand, continues to fuel our business. We may live in a different world than the one occupied by our founders, but one thing remains the same - we are furniture makers whose sole focus is to design and build the world's finest outdoor furniture.
